

**We advocate and dedicate to the needs
of our children, now and for future**

Our Vision for Children

- **They grow happily and healthily**
- **They aware their rights and duties**
- **They have good opportunities to unleash their potential**
- **They are equipped with right values and skills to build the society**

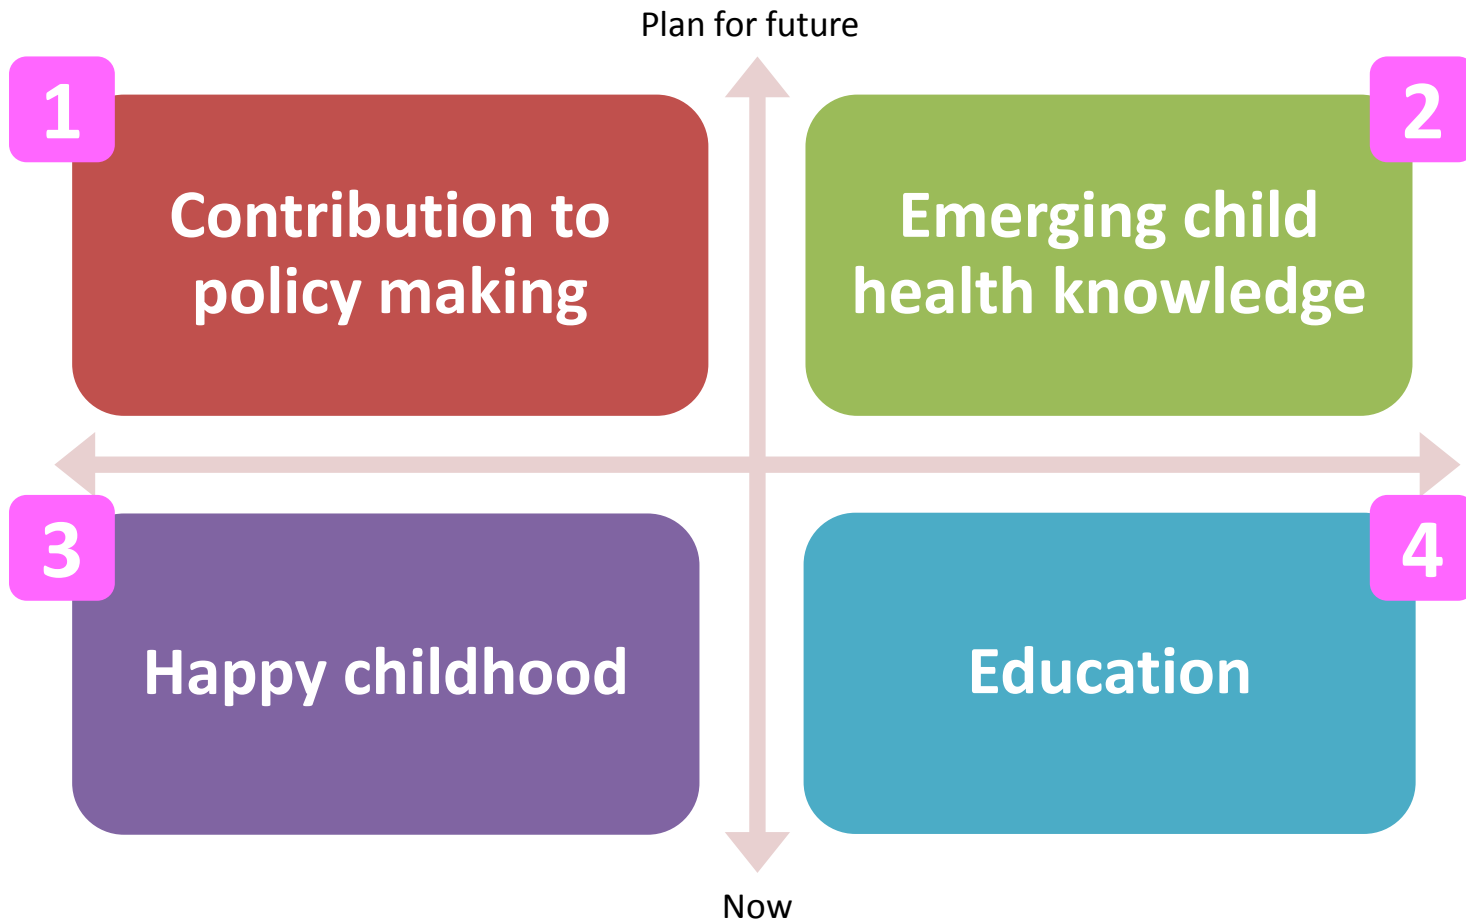

A bright future can then be expected

Children are vulnerable and do not have power to ask for what they need

Children represent 20% of population but 100% of our future

For the past 20 years, we are ambitious on 4 areas and more if deemed necessary

We create the FIRST together with multidisciplinary professional teams for the future of our children

1 Children Hospital

2 Child Health Policy

3 Children's Commission (work-in-progress)

5 Child Health Book for Parents

Contribution to policy making

Emergent child health knowledge

We nurture our children with happy childhood and education to key stakeholders

1 HK Children Drawing Competition

2 HK Healthy Children Competition

3 Professional Forum

4 Education & Advocacy Bulletin

5 Education Course for Kindergarten Teachers

6 Health Talk for Parents

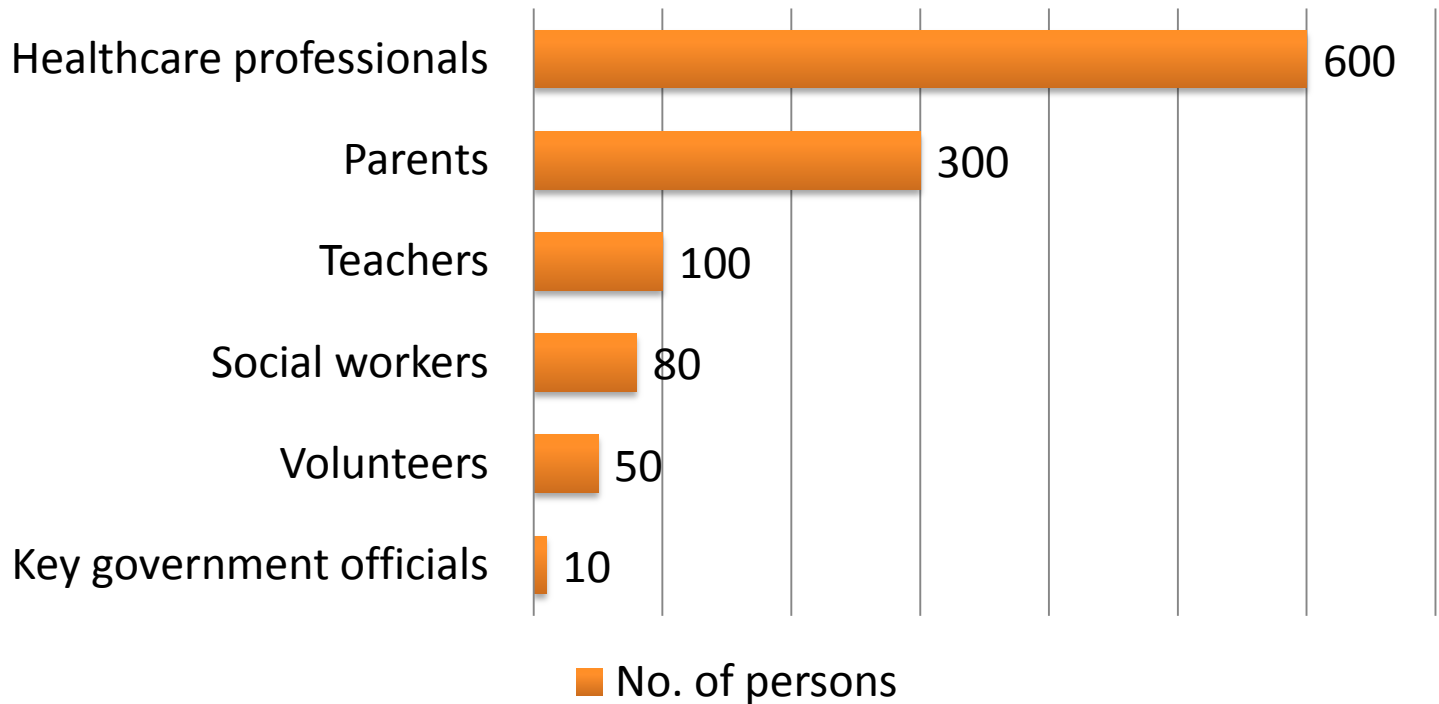

Happy childhood

Education to public/ professionals

We mobilize >1,000 influential stakeholders to ensure right supports for our children

We standby our children for a bright future

Please join us!
